1.	Under technical evaluation for underwriters - you have indicated "solvency margin of 150% as per IRA's latest annual reports". We recommend a minimum of 100% as per IRA set regulations	IRA recommends a capital adequacy ratio of at least 100% of the minimum capital. However, the prescribed capital is 200%. We therefore retain our requirement of solvency margin of 150%

All other terms and conditions of the tender remain the same.
